

2nd INTERNATIONAL BOARD MEETING

Project full title:
**REINFORCEMENT OF
FEED TO FOOD RESEARCH CENTER AT
INSTITUTE FOR FOOD TECHNOLOGY
OF THE UNIVERSITY OF NOVI SAD**

FEED-TO-FOOD

**Coordinator:
DR JOVANKA LEVIĆ**

MSc. Slavica Sredanović

Mersin 24.02.2009.

FEED-TO-FOOD

Funded by EC

Type of funding scheme:
Coordination and support actions (Support)

FP7-REGPOT-2007-3

Grant agreement no: 207043

Project objectives

- Reinforcement of FAP into the modern FEED-TO-FOOD Research Centre upgraded with Pilot Plant equipment and new researchers capable for investigation in feed manufacturing technology.
- Creation of network for cooperation between research teams, with scientific interest concerned with the feed to food production chain.
- Improvement of research capacities and filling the gap in experience in how to take part in complex and long term research EU projects

Work program

WP-1	Project Management
WP-2	Reinforcement of FEED-TO-FOOD Research Potentials
WP-3	Developing and unlocking of Research Potentials
WP-4	Knowledge Transfer
WP-5	Dissemination and promotion activities

WP1 Project Management

Participant ID	1	2	3	4	5
Participant short name	FINS	IFF	IFR	IBNA	IAS
Person-months per beneficiary	6	1	1	1	1

Objectives

To ensure the basic infrastructure of the CSAs for coordination and administration and to allow the FEED-TO-FOOD research centre to reinforced as planned on time and within budget

Description of work

- 1.1 Overall project management
- 1.2 Budget management
- 1.3 Coordination assistance
- 1.4 Local coordination
- 1.5 Organization of international board meetings
- 1.6 Organization of training
- 1.7 Organization of workshops and roundtable
- 1.8 Audit Certification

Deliverables

- D.1.1. Progress report about promoted cooperation

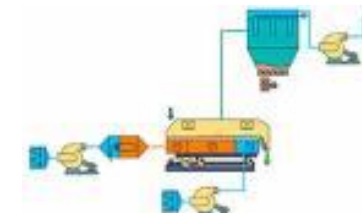

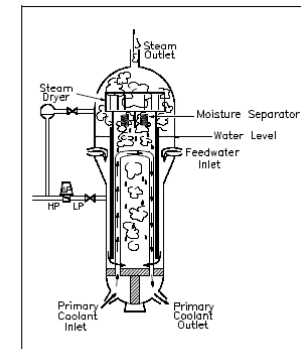

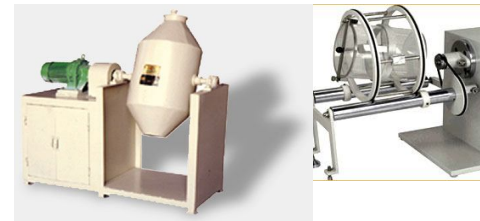

WP2 Reinforcement of FEED-TO-FOOD Research Potentials

Participant ID	1	2	3	4	5
Participant short name	FINS	IFF	IFR	IBNA	IAS
Person-months per beneficiary	134	1			

Objectives:

Improving the RTD capacity of FEED-TO-FOOD Research Centre in terms of:

- Upgrading and renewal S&T research equipment

WP2 Reinforcement of FEED-TO- FOOD Research Potentials

- **Development of S&T human potential and opening the opportunity for young researchers to be hired and later employed by the centre and thus prevent “brain-drain”.**

2 Young researchers chosen as the best postgraduate students **are hired** to work on the activities of **FEED-TO- FOOD project**

Young technician is hired to work and trained for maintaining a specific new pilot plant equipments

WP2 Reinforcement of FEED-TO- FOOD Research Potentials

- **Creating conditions for integration of FEED-TO-FOOD research centre in the FP7 networks and RTD projects as well as in the MS's national cooperation programmes.**

Researchers from FEED-TO-FOOD RESEARCH CENTRE are involved in 6 National projects

In the first year of project duration IFF and FINS by networking with EUFETEC (European Feed Technology Centre) building the consortium which make proposal for the call FP7-KBBE-2009-03.

FINS proposed FP7 REGPOT 2009-1. project Unlocking research potential of Institute

Deliverables

D.2.1. Report about equipment reinforcement

D.2.2. Reports about hired young researchers and technician

WP3 Developing and unlocking of research potentials

Participant ID	1	2	3	4	5
Participant short name	FINS	IFF	IFR	IBNA	IAS
Person-months per beneficiary	68	4	4	4	4

Objectives

- Briefings of project partners at FEED-TO-FOOD RC including on-site visits and introduction to local problems in production chain from FEED-TO-FOOD.
- Helping to strengthen the research capacities of researchers at FEED-TO-FOOD RC and to successfully participate in research activities at EU level.
- Establishing the international networking and co-operation integrating: exchange of scientific know-how; mobilization of human potential; exploitation of RTD results
- Stimulating the realization of the full research potential of the enlarged EU by unlocking and developing the research potential of WBC and the EU's convergence regions

WP3 Developing and unlocking of research potentials

3.1 International board meeting

It was not organized in Novi Sad

3.2 Exchanging research experience through short stays at MS's research institutes IFF and IFR

**This activity is not realised because the process of
changing beneficiary IFR by INRA is not finished**

Deliverables

D.3.1. Reports about developing and unlocking of research potentials

WP4 Knowledge Transfer

Participant id	1	2	3	4	5
Participant short name	FINS	IFF	IFR	IBNA	IAS
Person-months per beneficiary	12	2	3	4	4

Objectives

Knowledge transfer through

- 1st Workshop “MODERN TRENDS IN PRODUCTION CHAIN FROM FEED TO FOOD at International level by Feed-to-Food RC in Serbia
- Roundtable: “BETTER REGULATION IN FEED-TO-FOOD PRODUCTION CHAIN” with governmental stakeholders and producers by Feed-to-Food RC in Serbia.
- 2nd Workshop “EXTRUSION TECHNOLOGY APPLICATIONS IN FEED AND FOOD INDUSTRY” at International level by Feed-to-Food RC in Serbia.

Deliverables

D.4.1. Announcement for the 1st Workshop 15. month

WP5 Dissemination and promotional activities

Participant id	1	2	3	4	5
Participant short name	FINS	IFF	IFR	IBNA	IAS
Person-months per beneficiary	12	1	1	6	6

Objectives

- Results of the Project will be presented at conferences at national and international level, and through food-cluster initiative.
- Promotions of the developed FEED-TO FOOD- RESEARCH CENTRE and the results of knowledge transfer and networking of all beneficiaries through workshops, roundtables, public presentations, communication with stakeholders etc.

WP5 Dissemination and promotional activities

Description of work

- 5.1 **Public presentation of papers and articles concerned with Project**
Scientific bord at FINS 2x
National conferences: Ministry of science, Provincial agricultural secretariat, PTEP, Animal husbandry
International conferences: IBNA Bucharest, Podgorica-Ministry of science
- 5.2 **FOOD-CLUSTER activities**
2 meetings
- 5.3 **Development, launch and maintaining of Web portal**
Web portal established (IFF, IBNA have connections)
New domain established
- 5.4 **Leaflet preparation and publishing**
We finished this
- 5.5 **Communications with interested partners and authorities**
Ministry of science Serbia and Vojvodina, Provincial agricultural secretariat
- 5.6 **Contacts about Public presentations** (newspapers, TV shows, press conferences, different Web-portals...) of reinforced research capacities and networking results
TV 4x

WP5 Dissemination and promotional activities

Deliverables

D.5.1. Reports about FEED-TO-FOOD Project promotion

D.5.2. Web portal

D.5.3. Leaflet

2nd year Activities

International board meeting

Exchanging research experience through short stays at **MS` s research institutes** IFF and INRA: for (3key persons) from Feed-to-Food RC and from IBNA(1 key person) and IAS institutes (1 key person).

Exchanging research experience through short stays at institutes from **EU regions of convergence**: representatives from Feed-to-Food RC visit the IBNA (4 senior researchers) and IAS institutes (4 senior researchers).

Exchanging research experience and know-how through **secondments** of research staff from the IFF (1person), INRA (1 person), IBNA(2 persons) and IAS institutes (2 persons) in Feed-to-Food RC (*each person one month*).

2nd year Activities

- **One-month scientific visits and training of young researcher** from Feed-to-Food RC in IFF (4 person,) IFR (6 person), IBNA (2 person) and IAS (2 person). Junior scientists will be learn about research methods and running research projects at eu-partner institutions.

Two-week visit and training for new young researchers from Feed-to-Food RC in IFF institute at **basic course**-compound feed production (4 persons). *15-26 JUN 2009*

Knowledge transfer through
1st Workshop “MODERN TRENDS IN PRODUCTION CHAIN FROM FEED TO FOOD at International level by Feed-to-Food RC in Serbia
