

International board meeting

International board meeting was organized one day before 1st FEED-TO-FOOD project Workshop in Novi Sad. All beneficiaries attend this meeting and present their Institutes to management board of FINS and to researchers. FINS was also presented by the scientific director and general Manager. Feed to Food team gave a detail tour and talk about FEED-TO-FOOD Research Center and new pilot plant equipment to the members of International board and to other eminent guests and explained how it works and what are the area of feed and food processing and research activities for which this equipment can be used. Participants visited other laboratories in the Institute also and talk with researchers working in other Centers. Separately we discussed about details of passed and future project activities. This meeting was the added opportunity to evaluate achieved results and improve future activities.
