

7TH FOOD CLUSTER INITIATIVE, BRUSSELS, BELGIUM

FOOD CLUSTER INITIATIVE meeting was held on 13-14 October 2011 in Brussels- Belgium. This meeting was orienting much more towards 'research' (KBBE programme etc.) since the organizers consider that participating institutions have or they are about to finish their „capacity building“. A lot of interesting points were discussed. As usualy, we met many interesting potential partners.

Slavica Sredanovic and Olivera Djuragic from Research Centre Feed to Food participate at this meeting and distribute 3rd Leaflet of Feed-to-Food project and 1st Announcement for 6th Central European Congress on Food (**CEFood**) to other participants. FINS is one of the main organizers of this important event which will be held in Novi Sad 23-26th May 2012.

During this meeting we start to talk about new project proposal with Sigra Institut from Latvia which we were proposed later.

Our project officer dr Irmela Brach changed the workplace in EC and during the cocktail which was held in STANHOPE hotel participants are parted from her and thanked the good cooperation.
